

Intense Hydrogen Peroxide Scrubbing Action Naturally Removes Unsightly Build-up.

Active Ingredients:

Sodium Carbonate and Hydrogen Peroxide. Na_2CO_3 and H_2O_2 .
By-products are Water and Oxygen

HydroVescense™ is a special blend of ingredients that utilizes the powerful, yet gentle bubbling action of granular hydrogen peroxide to scrub away unsightly build-up from a variety of water feature surfaces in seconds.

For ponds, waterfalls, streams, and fountains: Use the "First Time Dosage" for immediate cleaning. Use the "Maintenance Dosage" weekly, or bi-weekly to maintain clean surfaces.

For unsurpassed water quality and fish health, we suggest using the full line of HydroClear™ water treatments. HydroClear™ water treatments are specifically designed to work together to enhance your enjoyment, and reduce the maintenance time of your water feature.

For waterfalls, streams, or fountains:

TEMPORARILY shut off the pump, and sprinkle HydroVescense™ directly onto affected surfaces. Wait 5-10 minutes - then turn your pump back on. Within days the build-up will be completely gone. For faster results, hose or brush off treated areas after 5-10 minutes.

For ponds:

Sprinkle HydroVescense™ directly over affected areas - it will sink and immediately go to work. The "bubbling" you'll see is actually the hydrogen peroxide scrubbing your build-up. You do NOT need to remove your fish, as they'll simply swim through the HydroVescense™ as it sinks and does its job.

Rinse product off non-submerged aquatic plants with water, or damage to the foliage may occur.

MAKE SURE TO MAINTAIN ADEQUATE AERATION BY KEEPING YOUR PUMPS, FOUNTAINS, OR AERATOR RUNNING!

Application Rates:

- **First Time Dosage:** 3-16 tablespoons for every 200 square feet of affected surface area.
- **Maintenance Dosage:** 1-5 teaspoons for every 200 square feet of surface area.
- **Spot Treatment Dosage:** 1-5 tablespoons per square foot of affected surface area.
- Can be used weekly, bi-weekly, or monthly.

ATTENTION: Failure to use as directed, or changes in water conditions may result in loss or injury to aquatic life and/or materials. Russell Watergardens & Koi is not responsible for any loss, or damage to living or non-living items natural or man-made and liability is limited to the value of the purchase price of this jar.

CAUTION: Harmful if swallowed. Eye and skin irritant. Keep out of reach of children and pets. Avoid contact with eyes and mucus membranes. In case of eye contact, flush with water for 15 minutes and call a physician. Do not inject. If swallowed, do not induce vomiting. Drink a glassful of water and seek prompt medical attention. If inhaled, immediately move person to fresh air, and call a physician. In case of skin contact, remove contaminated clothing and wash the infected skin with water. Wash clothing before re-use. Contains sodium percarbonate and sodium carbonate.

Shelf Life: 2 Years.
